

Elevator Connect 1000-4G VoLTE

The Complete Alternative to Landlines

Reliable Cellular Emergency Phone Equipment When You Need it Most

The EC-1000 provides a code-compliant, dedicated, wireless communications path for any simplex elevator and is the preferred alternative to costly landlines. The EC-1000 is a true drop-in replacement for elevator POTS lines and works with the majority of analog elevator phones, as well as our full line of SafeCall ADA phones. It provides 48VDC analog dial tone to the elevator phone enabling superior voice clarity. Every EC-1000 includes built-in, self-charging battery back-up supporting operation for over 10 hours in the event of building power failure.

EC-1000 Specifications

- 1 1/4" W x 6 1/8" H x 6 3/8" D
- Power: 120V AC/12V DC 500mA, UL listed adapter provided
- Connections: RF-11 telco jack for connection to travel cable
- Environmental: 0°C to 32°C (32°F to 90°F)
- Connects via 4G-LTE network

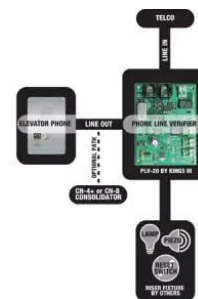

Features and Benefits

- Meets A171.1 1996 - 2016 communication code requirements
- Drop-in replacement for costly telephone lines
- Works with majority of analog elevator phones & phone line verifiers
- 10 hour battery back-up included
- Enable both incoming & outgoing two-way voice calls
- Line Failure Voltage detection compatible
- CPC protocol and line fault detection
- Direct Dial Override mode eliminates reprogramming the elevator phone
